EXECUTIVE SUMMARY

The company is a multidisciplinary company based in South Africa, with its core business on trading in all aspects (Trucking, Fencing, supplying, etc..) We also strongly believe that, in South Africa, business growth, existing and new, is a boom in job creation and economic growth. We intend to break new grounds by creating employment opportunities for as many people as possible. We believe that this long-term goals can be achieved through services. In our diversified business, we employ on contract bases, people (mostly female owned companies) from a wide range of professions.

 HLOMPHO
Mining & Logistics

HLOMPHO MINING AND LOGISTICS brings to the market a new breath of innovative energy in the business and will continue to cultivate a more professional approach going the extra mile to remain competitive, productive, and profitable while committed to producing quality results in every business transaction we are involved in. Since the company was founded, we stand with the vision of being one of the leading South African Companies, with diverse expertise, experience, and leadership, organized and structured to assist clients attain superior delivery and gain competitive advantage. The competence and dedicated company with dynamic management team are seen as key components in the rapid growth of the Company.

commitment to our daily business, careful planning, risk management

VISION

To be one of the biggest companies in South African business industry through visible quality services and the above to be achieved through accuracy, timeliness, integrity, and dedications.

MISSION

Usage of our strong marketing and advertising strategy is to achieve goals. In an ever-changing, fast-paced industry, success is determined by good choices for lasting effects. Communication is essential at all times.

HLOMPHO MINING AND LOGISTICS strives to be the best well-managed company providing and producing good quality work and results for our clients. Through consistent, predictable professionalism, we will command and maintain high corporate governance to reflect changes and success in our business cycle. But, not all our clients will be external.

HLOMPHO MINING AND LOGISTICS will strive to provide the same predictable and professional working environment to its employees and contracted associates, compensating them for their services and job well done. It is also a priority to create a comfortable working environment to have happy and dedicated workers, partners and associates. Keeping in tune with the needs of the market, we will study new market trends in the business industry ensuring competitiveness and mastering the ability to meet the demand in the market.

BEYOND SET STANDARDS

The company forms part of a broader safer environment and cultural empowerment initiatives. We put companies on the map by promoting company products to skyrocket sale and sustainability thereof. The constitution of South Africa guarantees equal status for all and is for these reasons we have embarked on safety promotions to create a safe working environment within companies and crime-free South Africa, an environment where even people who cannot afford security systems will still live peacefully in their neighborhoods. In every engagement, we seek a balance between our established methodology frameworks and sensitivity to the rapidly changing business landscaping to meet clients' requirements.

Our philosophy is to understand and continually revisit what clients want and ensure that our efforts remain relentlessly focused on meeting agreed objectives. This approach ensures effective use of team resources, a higher probability of successful execution, and minimum scope diffusion.

PRODUCTION DIVISION

The production division is the principal division in fulfillment of our philosophy. Media operates through mediums that influence the behavioral patterns of the people, therefore defining their identity.

It creates perceptions and overtly sells people's ideologies, cultures, and heritage. To redefine the company and its product in a more accurate and dignified manner, this division plays a vital role in our quest for better images of such a company by producing material that is best suitable for their brand.

KEYS TO SUCCESS

Our keys to success include commitment to our daily business, careful planning, risk management in every single project, and accountability from everyone who is part of the team. The company has a good working relationship with suppliers and other companies which allows us the opportunity to can source out skills or more manpower depending on the magnitude of the project.
